

# HexaCID™

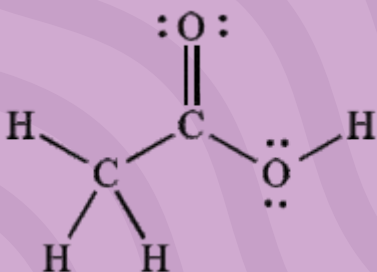

## A Documented Water & Feed Acidifier & Toxin Reliever for Poultry

Organic acids are weak acids, which exert antimicrobial activity through pH reduction and stabilizes the intestinal microbial flora by preventing intestinal bacterial colonization thereby improving the production performances, reduces the diseases and management problems.

**HexaCID is an optimized oral blend consisting of :-**

Formic acid, Citric acid, Lactic acid, Propionic acid,  
Acetic acid, Sodium butyrate and Orthophosphoric acid

## Benefits of HexaCID:-

- Has strong bacteriostatic effect
- Act as Salmonella control agent for poultry
- Increases proliferation and maturation of the intestinal cells
- Decreases colonization of pathogen and production of toxic metabolites
- Improves digestibility of protein and of Ca, P, Mg and Zn
- Serve as a substrate in the intermediary metabolism
- Decreases pH of cecal digesta, crop, gizzard and intestine
- Helps in uniform growth and speedy recovery from infections
- Promotes the egg production by accelerating laying capacity and prolonging the laying period
- Reduces carcass and egg contamination
- Potentiates the liver function and improves metabolic activity

## HexaCID is indicated for:-

- Effective acidification of the gut
- Nullifying the adverse effects of endo and exo toxins
- Correction of liver disorders
- Rejuvenating liver health and to improve and maintain better metabolic performance

## Recommended Usage:

HexaCID L - 1 ml to 2 ml per litre of drinking water

HexaCID F - 750 g to 1 Kg per MT of feed

## Presentation:

HexaCID L - 1 L HDPE Bottle and 5 L HDPE Jar

HexaCID F - 1 Kg HD Aluminum Pouch and 5 Kg HD Aluminum Pouch

*Customised packs available for export markets*

Free From Hormones & Antibiotics

Animal/Poultry Feed Supplement

Not For Medicinal use

Not For Human Use

DISPOSAL OF BAD AND OUTER PACKAGE: Do not contaminate water, food or feed by storage and disposal. Completely empty container into application equipment. Triple rinse pail and offer for recycling or reconditioning. Containers can also be disposed of in a sanitary landfill or by incineration, or in accordance with guidance from your local waste regulation authority, such as by burning (if burned, stay out of smoke). When applying this product to water bodies, avoid solid particles from falling on nearby ground where birds and feed may be present.
