

# ZEOTOXIN™ PLUS

## Granules

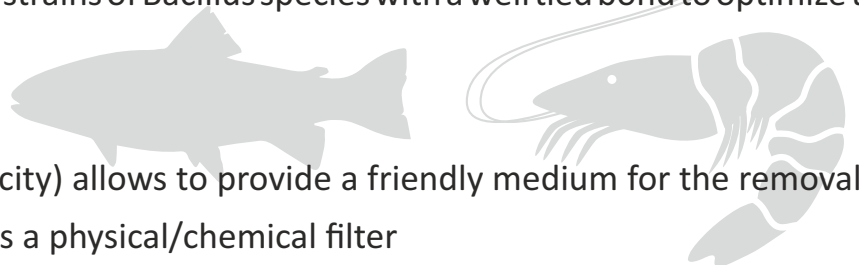

**Advanced & Upgraded Mineral Zeolite  
with Select Probiotics in Granule Form  
To Ensure Desired Soil  
and Pond Hygiene**

ZEOTOXIN™ PLUS is a unique blend of mineral zeolite with optimum colony forming units of select Bacillus strains probiotics in granular form providing an unmatched efficacy for all types of pond conditions.

ZEOTOXIN™ PLUS improves the water quality and hygienic characteristics which determine the survivability, growth and ultimate yield of Fish, Shrimp and Prawns.

The characteristics in ZEOTOXIN™ PLUS granules are multi-dimensional providing well described structures which contain silica, aluminium, and oxides of calcium which is an important mineral for healthy aquatic life along with various strains of Bacillus species with a well tied bond to optimize the effects multi-fold.

The high C.E.C (Cation Exchange Capacity) allows to provide a friendly medium for the removal of toxic gases by way of ion-exchange as a physical/chemical filter

## Zeotoxin™ Plus granules provide the following benefits:

- Creates eco-friendly farming environment
- Enhances the process of waste degradation naturally
- Dissolves and liquefies the waste & dead cells of phytoplankton and unused feed
- Controls propagation of harmful pathogens
- Helps to maintain proper pH in the pond
- Helps to eliminate toxic gases like ammonia, nitrites and hydrogen sulphide
- Is active both in fresh and salt water
- Completely safe for shrimp and phytoplanktons
- Leaves no residues and traces and is completely environment friendly
- The granular form helps to save time and labour
- Is safe, non-hazardous, non-toxic and economic for providing better aqua health solutions

Each 10 Kg ZEOTOXIN™ PLUS granule consists of Mineral Zeolite providing

SiO<sub>2</sub> – 82.35% to 85.00%

Al<sub>2</sub>O<sub>3</sub> – 5.28% to 8.00%

Fe<sub>2</sub>O<sub>3</sub> – 0.80% to 2.00 %

CaO – 8.00% to 10.00%,

MgO – 10% - 15% and

Bacillus species like B.subtillis,

B.megaterium, B.polymyxa,

B. licheniformis and B.pumilus.

NLT 2.5 million CFU per Kg

## Recommended Usage Directions:

The requirement of ZEOTOXIN™ PLUS varies depending up on the pH, water temperature, Water volume, species stocking density and the water quality.

ZEOTOXIN™ PLUS should be broadcasted uniformly through out the pond

## Recommended Usage Levels:

5 Kg to 10 Kg per acre or as recommended by an aquaculture consultant or a Technician

**Presentation:** ZEOTOXIN™ PLUS granules is available in 10 Kg HDPE Bucket packs

Free From Hormones & Antibiotics

Feed Supplement for Aquaculture Use

Store In a Cool and Dry Place

Keep Out of Reach of Children

DISPOSAL OF BAD AND OUTER PACKAGE: Do not contaminate water, food or feed by storage and disposal. Completely empty container into application equipment. Triple rinse pail and offer for recycling or reconditioning. Containers can also be disposed of in a sanitary landfill or by incineration, or in accordance with guidance from your local waste regulation authority, such as by burning (if burned, stay out of smoke). When applying this product to water bodies, avoid solid particles from falling on nearby ground where birds and feed may be present.
