

DELIMAX

A Desirable Sweetener for Cattle Feed

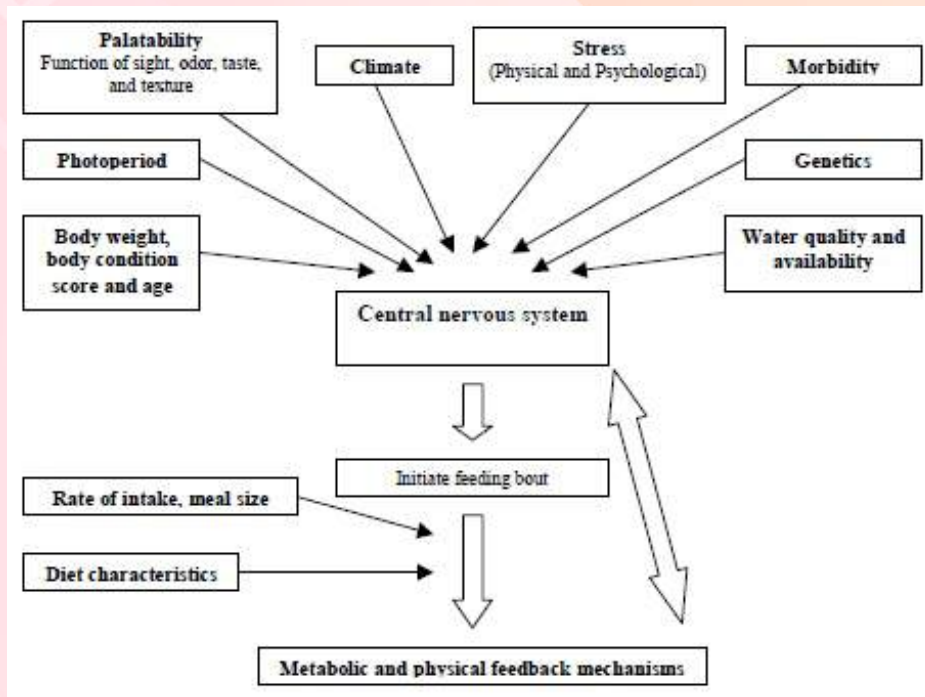

Taste is one of the major items in the sensory component of the palatability complex & plays a more important role in livestock animals such as pigs and calves than in humans. The sense of taste in higher animals functions in several processes, among which are control of ingestive behavior, onset of specific appetites, and reinforcement of learning situations. The initial impression of the diet by the animal is one of the keys to enhancing feed intake because if the animal does not perceive a palatable ration, feed intake will be decreased.

Lightweight calves or newly received cattle often suffer from decreased feed intake as a result of stressors imposed on calves during weaning, marketing, and transportation. Adequate nutrition is essential to maintain the integrity of the immune system, and decreased feed intake may exacerbate an animal's susceptibility to infection by interacting with pre-weaning nutritional deficiencies.

One strategy by which feed intake by cattle might be increased is to improve the palatability of the diet. The possibility of influencing the taste of feed stuffs positively is by the use of sweeteners.

DELIMAX is an ideal feed additive with the aim of enhancing the taste of cattle feed to stimulate the feed intake and to maintain cows in a positive energy balance during the transition period.

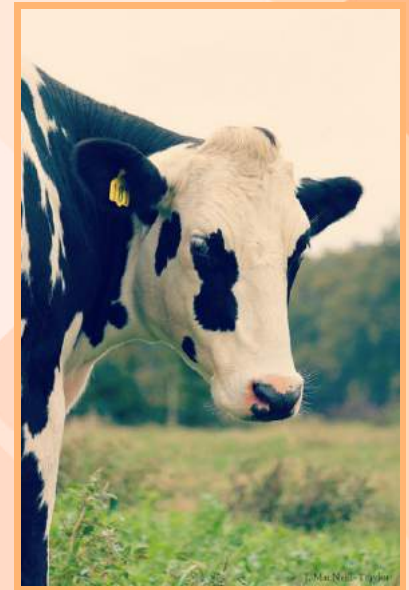

The consumption of sweet flavored diet has higher probability of being chosen first.

Feeds with sweet flavors increase the consumption of DM in early lactation cows

Features & Benefits

- A synergistic complex of high intensity sweetener
- Taste Enhancer & Potentiating agent
- Free from Animal by products
- Has long lasting taste without metallic or bitter after taste
- Enhances feed or mineral mixture palatability
- Improves feed intake in young calves & early lactating cows

Recommended usage:

200 - 400 g per ton of feed or as directed by Nutritionist

Presentation: 1 kg

Free From Hormones & Antibiotics	Animal Feed Supplement
Not For Medicinal Use	Not For Human Use

Catalyst LifeSciences Pvt. Ltd.

An ISO 9001:2015, ISO 14001:2015, HACCP Compliance Certified Company

Corporate Office: # 5, 301, 3rd Floor, Greenwood Plaza, Sector 45, Gurugram - 122003, Haryana

DISPOSAL OF BAD AND OUTER PACKAGE: Do not contaminate water, food or feed by storage and disposal. Completely empty container into application equipment. Triple rinse pail and offer for recycling or reconditioning. Containers can also be disposed of in a sanitary landfill or by incineration, or in accordance with guidance from your local waste regulation authority, such as by burning (if burned, stay out of smoke). When applying this product to water bodies, avoid solid particles from falling on nearby ground where birds and feed may be present.
