

# ShinyCoat

## A Superlative Conditioner for Shiny Coat

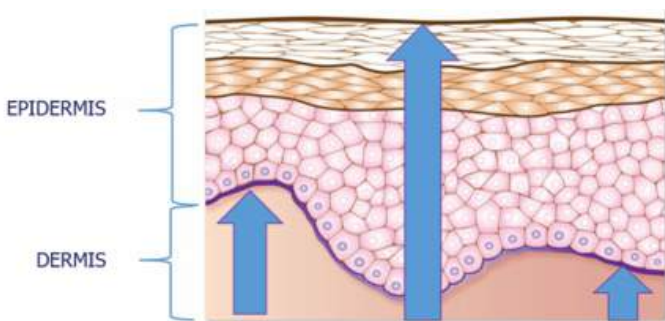

The skin and coat form the largest organ in dogs and cats, comprising around 10% to 15% of their total body weight. The skin is made up of the hypodermis (layer under the base layer of 'skin') which contains mostly fat, the dermis, and the epidermis. The dermis is also the most metabolically active and contains the sebaceous glands and hair follicles.

Sebum, the oily substance secreted by the sebaceous glands, keeps the skin and hair lubricated and also coats the hair to prevent friction during movement. The epidermis contains specialized skin cells called keratinocytes which produce keratin - a waxy substance that covers the epidermis to prevent the loss of water through the skin.

### How could you keep your pet's skin and coat healthy?

Diets rich in omega-3 & omega-6 fatty acids, protein, vitamins, and minerals play an essential part in caring for your pet's skin and coat.

Supports natural anti-inflammatory process.  
**Omega 3 EPA, DHA & Omega 6 GLA**

Supports skin barrier function.  
**Omega 6, Linoleic acid**

Reduces production of pro-inflammatory eicosanoids  
**Omega 3 fatty acid**

**Omega-6 Fatty Acids:** Involved in cell membrane structure and cell function. They are required for normal reproduction, growth, immune function, and skin and coat health.

**Omega-3 Fatty Acids:** Serve as a source of calories for your dog. Growing puppies require a dietary source of the Omega-3 fatty acid DHA to help support proper development and function of the brain, the central nervous tissue and vision.

*ShinyCoat is a distinctive oral supplement contains key essential fatty acids, Vitamins, Minerals & Spirulina in a balanced formulation to support skin health and reduces sensitivity.*

| Vitamin B12         | 0.3 mcg  |
| Niacin              | 0.5 mg   |
| Spirulina           | 250mg    |
| Pantothenic acid    | 0.2 mg   |
| Zinc                | 0.45 mg  |
| Copper              | 0.5 mg   |
| Biotin              | 10 mcg   |
| Folic Acid          | 4 mcg    |
| Iodine              | 0.1 mg   |
| Selenium            | 0.2 mcg  |

## Spirulina

Spirulina is a microscopic algae that contains a remarkably high amount of nutrients & protein. The concentration of beta-carotene, vitamin B-12 and iron are higher in Spirulina than any other known food, plant, grain or herb.

It helps to balance and stabilize the immune system, freeing up more metabolic energy for vitality, healing and assimilation of nutrients. It enhances the body's ability to generate new blood cells.

## Benefits of ShinyCoat

- Nourish & moisturizes skin
- Prevent and ease allergy symptoms
- Enhance detoxification and natural cleansing
- Helps to improve digestion and gastrointestinal health
- Strengthen the immune system
- Improves overall skin and coat health

## Recommended Usage Levels:

**Puppy/Kitten:** 2-5 ml twice a day

### Adult Dogs

Small Breeds: 5 -10 ml twice a day

Large Breeds: 10 -20 ml twice a day

**Cat:** 5 -10 ml twice a day or as directed by Veterinarian

**Presentation:** 200 ml

Free From Hormones & Antibiotics

Animal Feed Supplement

Not For Medicinal use

Not For Human Use
