

EPHEROL Forte

Optimized Blend of Essential Nutrients for Perfect Health Benefits and Sustained Performance

Performance horses compete in a wide variety of athletic and events ranging from high-speed racing to long endurance rides to exercises thru out their potential period.

These types of exercise are known to induce oxidative stress, leading to the generation of free radicals. An increased generation of free radicals may induce lipid peroxidation and tissue damage in both the respiratory system and working muscle.

This is particularly true, if your horse has an impaired antioxidant status and specially foals who are in their growing stages

EPHEROL Forte offers optimal levels of essential nutrients which offer to strengthen your adult horses and foals of all ages to adapt to antioxidant defense, improves cell mediated immunity and contributes its beneficial effects to young rapidly growing foals, pregnant mares, stallions, and especially equine athletes

Why EPHEROL Forte ?

- EPHEROL Forte scavenges and converts free radicals to relatively stable compounds and stops the chain reaction of free radical damage.
- EPHEROL Forte helps to enhancing the bacteria killing capacity of immune cells thereby boost immunity
- EPHEROL Forte is beneficial to provide supplemental Vitamin E, Selenium, L Lysine, Threonine & Nicotinamide to breeding horses, mares in late gestation and early lactation and for the healthy growth of the foals.
- EPHEROL Forte supports to enhance calcium absorption from the gut in all mammals and minimizes calcium excretion by the kidney making calcium more available to form healthy bones and support normal muscle and nerve function
- EPHEROL Forte supports optimal rates of protein synthesis in all the cells of the body thereby ensuring that the tissues have the structural proteins, enzymes and immune components for optimal functioning
- EPHEROL Forte helps to synthesize carnitine which is important for the first steps of beta-oxidation process by which energy is made from fat.
- EPHEROL Forte also helps to promotes formation of collagen and supports formation of healthy tissue and healthy bones in growing and aging horses

Why EPHEROL Forte ?

- Enhances calcium absorption thru gut & minimizes calcium excretion thru kidneys
- Promotes better absorption of calcium, hence supports normal muscle and nerve formation and functions thereby helping them sustain high levels of activity
- Promotes formation of collagen and supports formation of healthy tissue & healthy bones in growing and aging horses and assists muscle recovery after exercise which can support athletic performance
- Helps to convert energy from body fat in exercising horses & improves athletic performance
- Improves energy metabolism and supports to improve blood flow and circulation to improve nutrient metabolism, digestion, nerve function and skin health
- Supports reproductive processes in old mares and prevents reproductive troubles and muscular dystrophy
- Supports optimal rate of protein synthesis in all cells & helps tissues to function optimally thereby reducing stress and health issues related with travel a competition
- Eases muscle soreness and stiffness in exercising horses, helping them sustain high levels of activity
- Assists muscle recovery after exercise which can support athletic performance
- Helps to maintain a healthy immune system, hence promotes general wellness and sustains healthy body condition

EPHEROL Forte - Administration guide:

Epherol Forte should be mixed thoroughly with feed and administered under supervision of a Veterinarian / Qualified Equine specialist

Epherol Forte can also be administered as top dressing as per the recommended usage levels

EPHEROL Forte - Recommended Usage Levels:

- Foals & Yearlings – 50 gm per head per feeding twice daily, morning and evening
- Adult Horses – 40 gm per head per feeding twice daily, morning and evening

Or as advised by a Veterinarian/Qualified Equine specialist

Storage Conditions

Store in Cool and Dry Place
Protect from Direct Sunlight
Keep away from children
Store below 30o C

Presentation: 1 Kg milky white HDPE Jar &
5 Kg milky white bucket

Free From Hormones & Antibiotics
Animal Nutritional Supplement
For Animal Use only
Not For Human & Medicinal Use
For Veterinary Use Only
Target Animal – Dogs & Cats
Withdrawal Time – Zero days

Caution:

It is not recommended to increase the feeding recommendation of **EPHEROL FORTE**

A measure of 10 gram is provided with the pack
