

Heptamune+

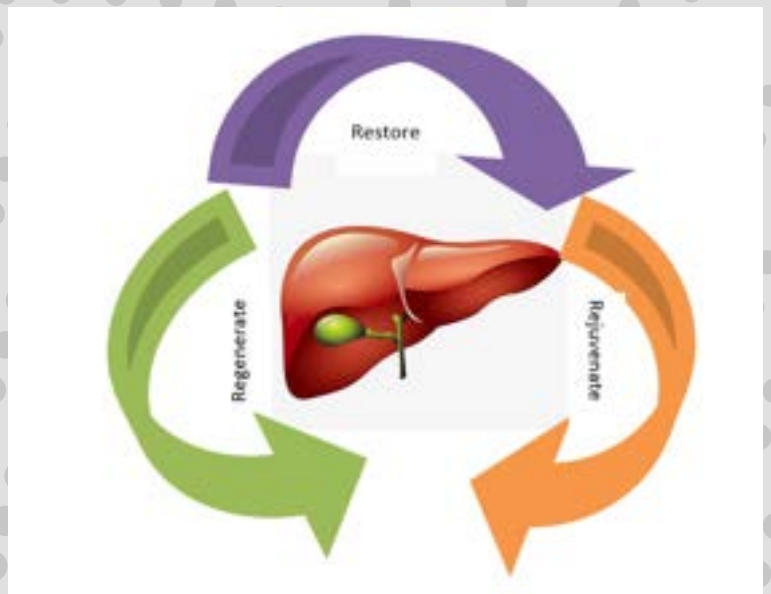

A Hepato-protective Immunity Enhancer

The liver is one of the largest and most sensitive organs, particularly in mammals. It receives a major part of intestinal blood and acts to regulate the blood glucose levels. Its primary functions are metabolic: maintenance of homeostasis, glucose and lipid energy. It is a place of storage of nutrients and it synthesizes plasma proteins.

During periods of under feeding or in early lactation, cows meet their energy demand by mobilizing fat from adipose tissues to obtain energy in addition to that provided by the diet. Mobilized fatty acids are taken up by the liver where they can be used as an energy source or be converted to ketones. These ketones may be released in the blood and used as an energy source by many tissues. During foetal development Liver has an important haemopoietic function

Heptamune+ is an ideal supplement fortified with a combination of trace minerals, Vitamins & Yeast extract which is an excellent source of B-group vitamins, proteins, carbohydrates and vitamin A and helps to regenerate the liver functions to improve the digestive health and acts as a general tonic to promote growth, body weight and to improve feed conversion and to enhance immunity.

Composition:

Nutritional Value per 30 ml of Heptamune+ consists of:

Ferrous Gluconate	250 mg	Cobalt Sulphate	5 mg
Nicotinamide	60 mg	Sodium Propionate	250 mg
Calcium Lactate	300 mg	Copper Sulphate	1.5 mg
Yeast Extract	200 mg		
Zinc Sulphate	6 mg		
Choline Chloride	500 mg		

Heptamune+ Benefits:

- Ensures a normal, active & healthy liver
- Helps in detoxification and excretion of endogenous and exogenous waste
- Restores the functional capacity of the liver and improves the metabolic activities
- Production of antibodies, bile, lactate and propionate (vital for proper body functioning)
- Promotes milk and meat production & helps in weight gain by helping metabolic activity
- Helps in reducing stress due to medication, climate & environment
- Supportive therapy in hepatic dysfunction due to liver diseases

Recommended usage (Orally)

- Large Animals: 30 - 50 ml
- Small Animals: 10 - 15 ml
- Poultry: Layers & Broilers – 20 ml / 100 birds (4th week onwards)
Broilers (Below 4th week) – 10 ml / 100 birds

Presentation:

200ml, 500 ml, 1000 ml HDPE Bottle & 5L HDPE Jar

Free From Hormones & Antibiotics

Animal Feed Supplement

Not For Medicinal use

Not For Human Use
